Cybersecurity Advisory Services for SMBs and Nonprofits | Metro Atlanta & North Georgia

Cybersecurity Advisory for Nonprofits

Practical cyber risk governance that protects donor trust, continuity, and mission.

What this engagement may include

- Current-state risk review aligned to nonprofit operations and constraints
- Vendor/MSP oversight and access clarity (including volunteers and shared accounts)
- Incident readiness guidance tailored to mission-critical services
- Board-ready risk reporting and prioritized improvement roadmap

Outcomes leadership can defend

- Board and leadership clarity on real risk exposure
- Improved resilience and fewer operational surprises
- Defensible posture for insurers, donors, and grant stakeholders
